25X1A

1. [] called last night about the proposal made in [] area. You will recall that in the discussion with [] and Wheelon that [] had agreed that they would do no more in this area and that hopefully things would quietly go away. From the phone call last night, it was apparent that [] had not talked directly to his people who are involved who were extremely enthusiastic and aggressive in this area.

25X1A

2. [] was not aware that they had gone to ADRA~~BC~~. Ed Munser of that organization has now requested follow on information, with the object of getting together with FDD although he has not asked for a specific firm proposal.

3. [] will be at [] today and here Thursday. He agreed to make no replies until he arrives here.

4. I suggested that he might consider passing on the difficulties in getting approvals for such work to discourage []. He has no ideas on how to handle this otherwise. My personal feeling is he would like to get his foot in the door.
